

A modern kitchen interior featuring a minimalist design. Two black cylindrical ceiling lights with copper-colored interiors are mounted on a light gray ceiling. Below them, a row of light gray kitchen cabinets is illuminated from underneath by a warm white light strip. In the foreground, a white countertop holds a black faucet and a clear glass vase with dried pampas grass. The overall aesthetic is clean and contemporary.

# SURFACE CYLINDER LIGHTS

# SURFACE CYLINDER LIGHTS

Simple and elegantly designed cylindrical lights with high quality aluminium body, specially designed heatsink for good dissipation to minimize degradation of the lumens.

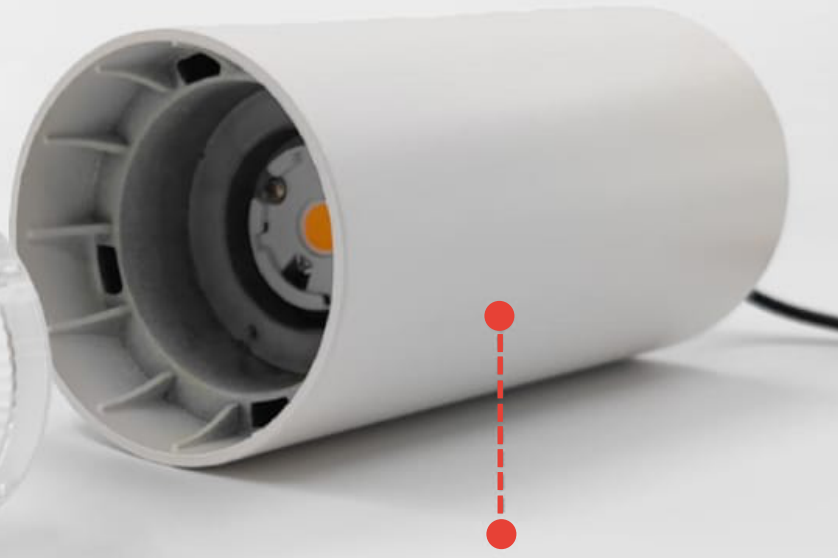

Application: Household, shops, hotels, cafes, restaurants.
